

# TAILIN®

## Floor Pads

### TAILIN

Tailin floor pads are made from non-woven open web construction. Abrasive grains are manufactured into the fibers of the pad, which maintains consistent high performance throughout the life of the pad.

### APPLICATION

Floor pads are used on standard and automatic floor machines, and are used for floor stripping, buffing, polishing and waxing.

### Premium and Regular kinds of Floor Pads

- **BLACK STRIPPER PAD** removes heavy dirt and loading.
- **RED BUFFER PAD** for wet or dry cleaning scrubbing and spray cleaning.
- **WHITE SUPER POLISH PAD** for wet or dry polishing, buffing and waxing.
